WORK EXPERIENCE

Quaid College - Full Stack Developer

Jan 2024 – Present

- Proficient in React.js development, encompassing state management, component composition, and lifecycle methods.
- Strong command of HTML5 markup, including semantic structure and accessibility features.
- Extensive experience with CSS3 styling, including layout design, animations, and responsive techniques.
- Advanced knowledge of Next.js framework, leveraging its SSR capabilities, routing, and API routes for seamless server-side rendering.
- Expertise in modern JavaScript (ES6+), utilizing arrow functions, destructuring, and async/await for efficient code execution.
- Familiarity with JSX syntax and its integration with React components for dynamic UI rendering.

Prallen – Software Engineer Intern

Dec 2023 - Jan 2024

During my React.js internship, I immersed myself in web development, crafting dynamic and user-centered websites. Hands-on experience in HTML5, CSS3, and Next.js honed my skills, as did collaborative projects with a skilled team. Contributing to impactful online solutions, I refined my abilities in React.js and JavaScript.

CERTIFICATIONS

- React 40 projects including (weather App etc)
- Building Own Saas Library.
- Firebase and React 18 Projects (Udemy).
